ABOUT

Currently working as a Game Developer at PatePlayTech Ltd.

In my daily work, I use technologies and tools such as TypeScript, Node.js, MySQL, Docker, Bash, Git, Nginx, PM2, and SSH.

I am also preparing for CompTIA and CCNA certifications by developing and managing a personal home lab equipped with Cisco firewalls, routers, switches, access points, and other networking technologies.

TECHNOLOGY

React C Bash Gsap
Python TypeScript JavaScript
CSS Node.js NPM Nginx
pm2 MongoDB PostgreSQL
MySQL Linux OpenSSH
OSI LLM MCP

Nikalas Tsekov

Software Developer

SOME OF MY PROJECTS

Arch Linux Dotfiles

A complete dwm environment built by me that shows understanding of file systems hardware to software communication package management and more.

C Bash Python JavaScript

USB-Secured Password Manager

Terminal-based password manager with Fernet encryption, a key stored on a LUKS-encrypted USB, and password generation.

Python LUKS Fernet AES

SSH Security Tool

Python terminal tool for auditing SSH configuration, managing firewall rules, and reducing common SSH&PORT security risks.

Python Linux OpenSSH

iwctl TUI Helper

Terminal-based UI helper for simplifying Wi-Fi configuration and connection management on Linux systems.

Python Linux IWD

Acer Hardware Unlock For Linux

Acer Gaming Laptop hardware is locked to their own software the PredatorSense which is Windows only. There were no compatible solutions out there for my Acer Laptop so I had to combine three projects in one.

C Python Bash
